

## CSC 530/730

### W5 Exercise 1

#### Recursive Basic Sorting in Arrays

##### Problem 1

In example project *Example13SortSearch*, add functions to implement a *recursive* approach to sorting array elements in non-decreasing order using the bubble sort algorithm.

##### Problem 2

In example project *Example13SortSearch*, add functions to implement a *recursive* approach to sorting array elements in non-decreasing order using the selection sort algorithm.

##### Submission

NO submission is needed.
